Moon Stick Swapped!

by MiaQc

Summary

A one-shot with a simple plot.
Sailor Moon from Sailor Moon Crystal has the Moon Stick from PGSM's Sailor Moon. However, that doesn't stop her from fighting the forces of evil.

- A translation of Moon Stick Échangé! by MiaQc

I know it's called the Moonlight Stick in PGSM, but Sailor Moon from the Crystal continuity doesn't know that.

I'm Sailor Moon. As I was planning to use Moon Healing Escalation on some demons, I realize that I no longer have my Moon Stick. Instead, I have a similar wand but the crescent moon seems to be made with a transparent crystal. That doesn't stop me from using it to fight the forces of evil. Besides, Moon Healing Escalation also works with this Moon Stick!
